IN THE MAXIMUM POSITION OF FLOWING FREELY, I AM FLOWING FREELY BACK DOWN INTO A DITCH.

In the maximum position of Flowing Freely, I am piling up a barrier of orderly inclinations, and then feeling fear and disappointment as the barrier is falling back down into a ditch.

- I am experiencing that small-minded people lose the way of Flowing Freely when
  - their inclinations are no longer mutually straightforward,
  - the desires of their hearts become cast off and scattered into personal directions, and
  - they stop attending to yielding heaven on earth by being led by heaven.

- Instead of working with the small-minded people and creating more disorder,
    - I am sharing information about, and
    - I am sharing the instructions of,
  - yielding heaven on earth by being led by heaven to
    - those people that are close to me in area or in virtue.

- I am aware that the information and instructions are not what is bringing about the fear and disappointment.
  - The fear and disappointment is originating in the small-minded people that
    - have scattered their hearts to their own personal desires
    - instead of corresponding regularly and directly to those ideas which
      - describe relationships between things of obvious similarity and
      - can be joined together to make each individual one better able to perform its own proper function.

IN THE FITH POSITION OF FLOWING FREELY, I AM MARRYING THE WAY OF YIELDING HEAVEN ON EARTH TO THE WAY OF BEING LED BY HEAVEN'S LEADING IMPULSE.

In the positions that is generally viewed as the ruling position, in the circumstances of Flowing Freely, I am giving the leadership role to the second position instead.

I am listening to and attending to the people of lower positions
- that are persistently deciding against their own personal desires;
- that are softly receiving the influence of others, while also firmly holding to the way of being led by heaven;
- that are receiving enlightenment and are making informed decisions;
- that are able to make decisions without becoming harmful in their decisiveness; and
- that are firmly being led by heaven, while softly yielding heaven on earth in their influence of others.

When I am aligning my placement in the ruling position in this way,
- I am creating the origins of good opportunities;
- I am providing wages to those that maintain proper virtues; and
- I am obtaining a season of general joy, success, and victory.

IN THE FOURTH POSITION OF FLOWING FREELY, I AM QUICKLY RETURNING TO THE WAY OF BEING LED BY HEAVEN.

I am aligning with the ruling position and the maximum position of Flowing Freely and we are all sincerely aligning ourselves with the way of being led by heaven.

In the fourth position of Flowing Freely, I am in the first position to exceed the center and I am altering myself to return to centrality and the way of being led by heaven.
- I am sincerely aligning my intentions with the intentions of those that are properly placed in the ruling and maximum positions of Flowing Freely;
- I am not aligning with others for wages and wealth; and
- I am aligning with others because of proper tendencies and inclinations.

When I am exceeding center and Flowing Freely,
- I am losing what is real and in actual existence;
- I am yielding heaven on earth in a way that is moving apart from the way of being led by heaven;
- I am beginning to yield into a way that is mere appearance and not within the objectively verifiable way being led by heaven.

I am not waiting for any more information or for any particular warnings.
- I am sincerely aligning with the ruling position and the maximum position around our shared principles of being led by heaven; and
- We are all three quickly flying back down to a centrality that is fitting in this particular moment.

Together, all of us in the positions that are exceeding centrality, are aspiring in our heart and in our core, to return to the way of being led by heaven.
